

About Us

Eitan Gorlin Films, based in Jerusalem, offers original, adapted and for hire material for film and television. Our narrative screenplays are story and character driven and generally multi-layered and anchored in history. We do not shy away from the controversial and strive to highlight the absurd and the comic. **Eitan Gorlin Films** also provides documentary production services, from concept to post- production.

Recent producing credits include *Bayou Caviar*, directed by Cuba Gooding Jr. and starring Cuba Gooding Jr., Famke Janssen and Richard Dreyfuss, along with *Free Toby*, an activist documentary about corruption in Israeli courts, co-directed by Eitan Gorlin.
